

When you donate to Kentucky Waterways Alliance you are helping make sure Kentucky's waterways are restored and kept clean. Your donation supports:

- Grassroots awareness in local communities which includes the publication of a quarterly newsletter, flyers and other outreach materials.
- National networking among water protection and restoration organizations to keep KWA staff up-to-date on best practices for water protection.
- Training for watershed groups, public agencies, and companies interested in water issues.
- Advocacy which includes the review and challenge of permits allowing excessive pollution into Kentucky waterways.
- Regional and statewide roundtable meetings for watersheds and river basins for localized water quality problem-solving.
- Safer and improved watersheds and waterways throughout the state.
